# EIGHTEEN YEARS OF LAUGHS WITH US AROUND THE WORLD!

The **Jashgawronsky Brothers** have performed in Italy, Germany, Austria, Switzerland, France, Spain, Portugal, Belgium, Holland, Denmark, Sweden, Finland, Poland, Romania, Canada, Mexico, Brasil and Japan.

*crazy music  
for mad people!*

Since they timidly set foot in the show business more than twelve years ago, the Jashgawronsky Brothers have gone a long way. They left their Yerevan orphanage in faraway Armenia and came to the western world. Once they established in Italy they began to tour Europe in search of fortune with their strange instruments built with recycle material. Their music is one that is maybe lacking in resources but is rich in intelligence and fun, and has conquered the hearts of everyone, as well as these extraordinary brothers have with their naive and bewildered aspect.

# POP BINS

**JASHGAWRONSKY**  
*Brothers*

The evolution of Jash! All jumps out of the bins! Everything sounds and pop music spreads like garbage. From brooms to buckets, from trash cans to graters and toilet paper, from dry to wet waste. It is a show where invention becomes music and the common objects acquire a new fantastic and comic dimension. Nothing is created or destroyed, but merely transformed. But the question is: The pop is garbage or trash is pop? Don't miss their next "Folie"!

**The show suits open air stages, street, theatres,  
conventions and is meant for all ages.**
